## Linear predictor μ in the model

```
posterior_linpred(..., tibble(flipper_length_mm = 201))
```

Body mass (g)

Expectation of the posterior E[y] and μ in the model

```
posterior_epred(..., tibble(flipper_length_mm = 201))
```

Body mass (g)

Posterior predictions Random draws from posterior Normal(μ, σ)

```
posterior_predict(..., tibble(flipper_length_mm = 201))
```

Body mass (g)
